Meridian Yoga & Qi Gong: Saturdays 09:00 –13:00, 26.1, 23.2, 6.4, 25.5

The term “Meridians” comes from the Traditional Chinese Medicine (TCM) and describes the energetic channels that move and flow inside our body. People often carry blockages in one or more meridian, which can result in discomfort and disease.

In this Workshop will learn and practice a series of **Meridian** and **Hata Yoga** "Asanas" (postures)& **Qi Gong** movements including **Pranyama** in order to open the meridian channels, release stress & excessive emotions (anger, sadness, fear, obsessive thoughts & depression are the main cause of health problems according to the T.C.M), and gain vitality, strength, silence and peace.

We will also learn about **the 5 Elements and 12 meridians** of the T.C.M and how to know which system is weak in our body and which exercises are good to support it.

In the end of this workshop we will have a **better understanding about our body in relation to the 5 Elements and the meridian system, and which exercises/Asanas are good to support us physically and mentally, and that will**

encourage us to turn it into a sacred daily practice (which is one of the goals of this workshop).

We will receive as well, a paper with most of the exercises that we practiced **including photos and explanations**, which will help us to practice at home on ourselves.

This workshop is open for both beginners and advanced practitioners.

No experience need, This workshop is good for anyone that like to work with their body, for those who never practiced Yoga before, for Therapists of any kind, Yoga teachers, Qi gong teachers, dancing teachers and for people who would like to feel the Qi and understand their body better.

Zen shiatsu for beginners: 2 Saturdays from 09:00- 13:00, 2.2, 16.2

Shiatsu is a Japanese therapy in which manual (hand) pressure is applied to certain points on the body to work on the body energy (qi/meridians). Based on the same principles as acupuncture, the purpose of Shiatsu treatment is to release energetic blocks that cause pain and disease, allowing energy to flow throughout the body. By applying pressure on the tissues we gain relaxation, flexibility and release of pains.

in this workshop we will learn the basic principles of shiatsu including the right postures and positions, and practice in pairs as receivers and givers on mattresses on the floor.

We will start with meridian Yoga warm up, in order to prepare our body for the practice.

By the end of this workshop, participants will be able to give a basic Shiatsu treatment and would be able to practice on their friends, family, children etc, and have better understanding about their body and what they need.

We will receive as well, a paper with all of the postures ("KATA") that we practiced **including photos and explanations**, which will help us to practice at home on our friends, family, partners and children.

No experience need, This workshop is good for anyone that like to work with their body, for those who never practiced Shiatsu or Yoga before, for Therapists of any kind, Yoga teachers, Qi gong teachers, dancing teachers and for people who would like to feel the Qi and understand their body better.

Zen Shiatsu for beginners: 5 meetings on Saturday from 09:00- 13:00

16.3, 23.3, 13.4, 4.5, 11.5

Shiatsu is a Japanese therapy in which manual (hand) pressure is applied to certain points on the body to work on the body energy (qi/meridians). Based on the same principles as acupuncture, the purpose of Shiatsu treatment is to release energetic blocks that cause pain and disease, allowing energy to flow throughout the body. By applying pressure on the tissues we gain relaxation, flexibility and release of pains. In shiatsu, we work on the meridian channels. The term "meridians" comes from the Traditional Chinese Medicine (TCM) and describes the energetic channels that move and flow inside the body. TCM discovered 12 main meridians that are responsible for the circulation of qi (life energy or prana). People often carry blockages in one or more meridian, which can result in pain, problems, and disease.

In this workshop, we will learn the basic principles of shiatsu, and understand how Shiatsu works by both feeling (receiving) and doing (giving).

We will work on pairs on mattresses on the floor and practice the prone(lying on the belly) and supine(lying on the back) position.

We will also learn the basic exercises of the 5 Elements from Chinese medicine based on the book Meridian Exercises by Shizuto Masunaga, which is very similar to Yoga Asanas & some **Meridian yoga & Qi Gong movements** in order to open the energy blocks and prepare our body to the practice.

according to Chinese medicine the major reasons for imbalance, problems and disease are excessive of emotions: when we have too much anger& frustration, too much worries, too much fears, sadness, grief, anxieties we are out of balance.

One of the purposes of this workshop is to let go these emotions, love yourself the way you are and then become much more calm and complete. also to develop awareness to yourself and others.

By the end of this 5 meeting workshop, participants will be able to give a full body Shiatsu treatment and have better understanding about their body in relation to the 5 Elements and the meridian system.

We will receive as well, a paper with all of the postures ("KATA") that we practiced **including photos and explanations**, which will help us to practice at home on our friends, family, partners and childrens.

Also, it will help you to connect to your body better, listen ,understand and accept yourself and others the way they are and gain vitality, strength and inner silence.

No experience need, This workshop is good for anyone that like to work with their body, for those who never practiced Shiatsu or Yoga before, for Therapists of any kind, Yoga teachers, Qi gong teachers, dancing teachers and for people who would like to feel the Qi and understand their body better.

Au cours de cet atelier, nous apprendrons des asanas du Yoga des méridiens (postures) ainsi que des mouvements de Qi Gong afin de libérer les blocages énergétiques et gagner en vitalité, paix et silence.
